

Take 10 minutes  
to compare this offer with  
your current dictation contract

Your firm could save £1000's

# Still investing heavily in your dictation system?

Moving to the Cloud is simply good business sense

**More than 50% of the UK firms who adopt Cloud technology do so to decrease IT operational costs and to increase profitability & efficiency.**

**Instead of investing resources in server purchases, maintenance costs, software licensing and system upgrades, firms can move, almost seamlessly, to a solution that will deliver instant cost & efficiency benefits across their organisation.**

## Summary of Cost Benefits

- No capital investment required
- No need to 'over' purchase in order to ensure you have sufficient resources to meet future demand
  - No requirement for expensive physical server space and no additional expenditure spent on power or cooling
  - No need to purchase and hold costly, rarely used, back-up and recovery hardware on your premises
  - Software updates are automatic, free-of-charge and also remove the need for high levels of staff management
  - Travel expenses will decrease by enabling remote users to share work and access critical applications from any location

**Oyez Cloud Dictation provides future-proof dictation WITHOUT ANY**

Consultancy Fees

Server Charges

- ✓ System Training
- ✓ Software Updates
- ✓ Mobile Smartphone License
- ✓ On-going Helpdesk Support
- ✓ Standard Reports Package
- ✓ Unlimited Number of Dictations
- ✓ 30-day money back guarantee of satisfaction
- ✓ Preferential pricing on Philips hardware
- ✓ Multi-year price guarantee available

“  
*We are very satisfied with Oyez Dictation.  
Moving to the cloud has vastly decreased  
the pressure on our internal infrastructure and users  
have found it very easy to operate.  
We have also benefited from significant cost savings.  
You cannot argue with the advantages  
of getting a much better system for less money.*  
”  
Richard French, Partner, Quality Solicitors Burton & Co.

### Flexibility

Users can access Cloud Speech from any web-enabled PC, laptop, tablet or phone. Intelligent job routing also provides firms with the freedom to share work efficiently across multiple departments, office locations or with home workers.

### Control

Cloud technology makes it easier for administrators to plan work in advance and to shift resources around to meet fluctuating requirements.

### Scalability

Add or remove users quickly and easily to suit your firm's immediate dictation requirements.

### Mobility

All authorised users can access the system to work efficiently from home, the office or when on the move!

### Support

All licensed users have on-going access to our friendly and knowledgeable helpdesk team who are on hand to deal with any questions quickly.

### Seamless Updates

Hardware drivers are delivered within the package and automatic client-side updates take place without disruption to IT staff or users.

### Security

Every single dictation is fully protected by secure HTTPS transmission and accreditations that include PAS, ISO and PCI compliance.

Cloud technology offers your firm a secure back-up. In cases of system failure or disasters such as a fire, you will still be able to retrieve your data.

The UK's only all-inclusive  
dictation offer for one low,  
transparent annual license fee

## In-House Hosting

If your firm has already made the investment in an extensive in-house technical infrastructure and a trusted IT team who manage systems and processes, you may not be ready to make a move to the Cloud.

In these circumstances, your firm can still receive all of the benefits of OS7 which can be hosted and managed within your own internal network.

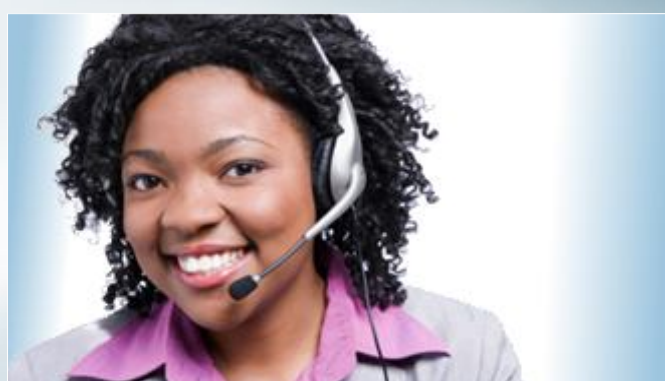

If you have the necessary requirements in place, little investment will be needed to get your firm up and running. Please note that all standard on-site installation and training charges will apply.

OS7 offers your firm very competitive prices on annual license fees that cover all future system upgrades and provides all users on-going access to support services.

Also available . . . . .

**Speech Recognition**  
designed for professional users

**Transcription Services**  
integration

To allow you to appreciate the full functionality and ease-of-use Of Oyez Cloud Dictation we are happy to provide
